

WALTER DE SILVA

PERFORMANCE **in** LIGHTING

PERFORMANCE LIGHTING

PERFORMANCE iN LIGHTING and Walter de Silva have created the perfect harmony between substance and meaning.

German technology and Italian creativity is the happy correlation between these two distinct methodological approaches, resulting in a mutual benefit.

Attention to detail, technological precision and a systematical study are the distinctive elements which drew Walter de Silva to effectively interpret a theme that is both intricate and technologically challenging as that of light.

WALTER DE SILVA

Intuition and passion, a designer of unquestionable talent, Walter de Silva has over the years developed a unique and emotional design with a distinctive style that can be transferred within the different body of groups he collaborates. With his deep knowledge of the automotive world and after major collaborations within product design, Walter de Silva has transposed his talent to create this new unique collection designed for PERFORMANCE IN LIGHTING.

LIQUID, IN-TENSE and MERCURY are here with lighting fixtures that express the perfect harmony between a futuristic, dynamic, and intangible aspects of their solidity sculptural timeless design values. The wave represents the perfect metaphor between energy and matter, a seductive interpretation of wave particle duality in the aspect of light as both a physical reality, living and undulating.

LIQUID

design Walter de Silva

Motion, energy and light. LIQUID is the first luminaire designed by Walter de Silva for PERFORMANCE IN LIGHTING where technology and beauty come together in a unique design. A distillation of pure technological essence which explores reflections on the nature of light with aesthetic values of the highest quality. Light is energy, wave, evanescence. Metal is static and durable over time. The waves of a drop crystallize into a lightweight, solid volume that expresses fluidity and dynamism at the same time.

IN-TENSE

design Walter De Silva

Ethereal and light but intense. IN-TENSE embodies the perfect combination of dynamism and fluidity. The almost skin-like tension of the material explodes in a three dimensional creation, whose sophisticated line evolves and composes volumes in motion, while a meditated asymmetry regains the uniqueness of the essential natural element we know as light.

MERCURY

design Walter de Silva

Roundness and voluptuousness. MERCURY wraps light with its enveloping volumes. A technical revolution about the hot side of light. A strong metal soul emphasizes a futuristic taste that interprets the needs of the digital age. A thin outer shell, slender, seemingly delicate, hides within it the richest reflections of light.

To meet the customer's needs,
PERFORMANCE IN LIGHTING has over the
years established a vast and structured
commercial network through subsidiary
companies and distributors.

The Group now exports to more than 100
countries worldwide.
